## High quality process inks

### Multi Pro Plus

- Based on renewable raw materials
- Excellent printability
- Very fast setting
- Excellent ink/water balance
- Very good rub resistance
- Ideally suitable for gloss and matt papers and board

### Multi Pro Bio

- Based on renewable raw materials
- Robust all-purpose all-round ink series
- Excellent printability
- Fast setting
- Excellent ink/water balance
- Good rub resistance
- Ideally suitable for gloss coated papers and board and well suited for matt coated and uncoated papers and board

### Superior PSO Bio

- Very high rub resistance
- High stability on the press
- Excellent ink/water balance
- High ink intensity
- Highest print sharpness
- Ideally suited for gloss and matt coated papers and board. Well suited for uncoated papers and board

### Superior PSO Bio LT

- Optimal for ISO 12647-2 standard
- All-purpose all-round series.
- Excellent printability also on perfecting presses
- Very high rub resistance
- High stability on the press
- Excellent ink/water balance
- Ideally suited for gloss and matt coated papers and board, also for picking sensitive papers

### Extreme PSO Bio Plus

- Very high rub resistance
- High stability on the press
- Excellent ink/water balance
- High ink intensity
- Fastest oxidative drying
- Optimally suited for matt, gloss coated, uncoated paper and board

### Extreme PSO Bio LT

- Very high rub resistance
- Very well suited for picking sensitive papers
- High stability on the press
- Excellent ink/water balance
- High ink intensity

## High quality process inks

### Advanced PSO Bio

- High rub resistance
- High stability on the press
- Excellent ink/water balance
- Very high ink intensity
- Optimally suited for matt, gloss coated, uncoated paper and board

### SafePack LM Plus

- Low migration for food packaging
- 100% vegetable based
- Low odour
- Low swelling

### Hard Dry

- Very Hard Drying
- Suitable for uncoated stocks and board
- Maximum abrasion resistance
- Excellent carbonising fastness

### Pro Foil Plus

- Perfect runability
- Good cylinder rolling
- Perfect ink/water balance
- High intensity
- Very good rub resistance
- Extremely fast oxidative drying

### AniPro

- Excellent work and turn properties
- Suitable for all sheetfed offset presses
- Vegetable based low VOC ink
- Works well in combination with infra-red drying units, offering an even faster setting and drying
- Suitable for a wide range of finishing applications, such as UV varnish, aqueous coating, foil or lamination

### FAST-SET Plus

- Extremely fast setting
- Fast "work and turn"
- Excellent colour/water balance
- Very high dot sharpness
- High colour intensity
- Ideally suited for gloss coated papers and board
- Suitable for matt and uncoated papers and board

Available in: 2 kg cartridge, 2.5 kg tin, 200 kg drum

**All our Bio-inks  
are mineral oil  
and cobalt free**

DDF has over 40,000 graphics consumables in its product range. But what if you cannot find the product you are looking for? Just send a mail to [office@deutschdruckfarben.de](mailto:office@deutschdruckfarben.de) or call +49 221 28 09 41 04. We can help you find the right product and/or custom solution.

## High quality process inks

### UV-Xtreme Lo-E

- Exceptional stability of ink / water balance
- Very high colour strength
- Suitable for paper and board, non-absorbing substrates must be tested upfront
- Compatibility with all types of dampening systems using either alcohol minimizer or conventional water fountain solutions
- Inks remain very stable on the rollers
- No misting even on high speed presses
- Very high reactivity. Reactivity is influenced by the substrate, efficiency of the lamps and reflectors, the thickness of the ink layer, colours and superposition, etc.
- Compatible with mix rollers

### UV-Xtreme HR

- Low energy consumption
- No generation of ozone
- Fast curing speed
- High colour strength
- Excellent ink-water balance
- Can be used with or without IPA

### UV-Paper Plus

- Very fast through hardening
- Excellent ink/water stability
- ITX and Benzophenone free
- Good gloss
- Low dot gain

### UV-All Premium Plus

- Excellent adhesion on a big range of different non-absorbing printing substrates
- Excellent printability
- High intensity
- Fast curing of the ink film
- ITX and Benzophenone free
- High flexibility of the ink film

Available in: 2 kg cartridge, 2.5 kg tin, 200 kg barrel

## Druckvarnish Overprint Varnish (oil based)

Hard Dry	Sheetfed Overprint Varnish Non yellowing
Matt	Deep matt finishing
Silk	Sheetfed Overprint Varnish Extreme suitable for 10 and 12 colour presses. Non Yellowing
Neutral	Neutral finish
Mirror Gloss	Extremely high gloss finishing
LED UV Matt	Deep matt finishing for use with Low Energy UV lamp and LED UV technology
LED UV Gloss	High gloss finishing use with Low Energy UV lamp and LED UV technology

## Deutsche Druckfarben

Deutsche Druckfarben is offering the complete range of process inks, Pantone inks, special inks and additives for all sheetfed and narrow web applications.

- High quality process inks
- High quality Pantone inks
- H-UV inks
- LE UV and HR-UV inks
- LED UV inks
- Low migration inks
- Low odour inks
- Speciality inks

We have our own R&D and have a large in-house lab to do all test which are need to improve, secure and develop stable and high reliable inks.

## Quality Statement

Modern, highly pigmented ink series designed for the widest possible field of applications. Almost every 4-colour set is suited for any type of printing machines (perfecting machines as well as straight printing presses). As a result of its versatility, Deutsche Druckfarben inks are especially suited for use in large corporate groups where different manufacturing bases and various printing machines are encountered and the best performance and consistency is required with identical print results from one process ink.

## Pantone® inks approved

---

Deutsche Druckfarben is a Pantone approved supplier of standard Pantone blending inks and special Pantone matchings. Inks are tested and approved annually to ensure shade and strength conform to Pantone specification. All approved Pantone inks have the same strength and shade from all suppliers, if there are differences the inks cannot be Pantone approved.

## Technical Support

---

A comprehensive package: the complete pressroom ink and consumables solution. Technical advice and support to 'finger-print' presses to achieve Fogra PSO ISO 12647-2. Complete pressroom pre-trial audits – including press types, water quality, substrates used and types of work being printed. Guarantee the correct ink and fount selection tailored to individual customer requirements.

Deutsche Druckfarben delivers  
low migration inks for foodpacking.

## Deutsche Druckfarben

---

Deutsche Druckfarben is a leading specialist in printing inks and varnishes. These quality products are used in both commercial and packaging printing. In addition, Deutsche Druckfarben supplies a wide range of products such as (pre)press chemistry, water based and UV lacquers, printing blankets and washcloth (dry and impregnated). These products are manufactured since 1977 by a group of companies - which Deutsche Druckfarben belongs to – in different modern European factories.

## High quality products

---

Deutsche Druckfarben has its own research and development department with a professional in-house laboratory. In this laboratory we carry out all the tests we need for quality control, optimization and development of our printing inks, water based and UV varnishes and printing chemicals. Deutsche Druckfarben is constantly working on optimization and further development of its products. A combination of many years of experience, constant market analysis and customer feedback combined with high-quality products, is what distinguishes Deutsche Druckfarben from the competition.

## Corporate Social Responsibility

---

The inks and varnishes made by Deutsche Druckfarben meet the most stringent environmental standards. The Deutsche Druckfarben Bio inks are free of mineral oil and cobalt. Corporate Social Responsibility (CSR) is of high importance for Deutsche Druckfarben. This applies not only to our commercial activities (Profit). We also look at the impact of our products on the environment (Earth) and pay attention to human aspects in- and outside our company (People).
